All transient advertisements must be paid for in advance.
Contract advertisers will not be allowed to exceed their space unless the excess is paid for at transient rates, and under no circumstances will they be allowed to advertise other than their legitimate business in the space contracted for.
Marriage and death notices must be paid for in advance.
Resolutions in memoriam, of thanks, tributes of respect, resolutions adopted by societies or persons, unless of public concern, will only be printed in this paper as advertisements.
The GAZETTE office is connected with the Telephone Exchange. Advertisements, orders for the paper, news or any information or business can be sent by telephone.
[Entered as Second-Class Matter.]

A VANDERBILT WEDDING.

The wedding of Miss Edith Stuyvesant Dresser, youngest daughter of the late Captain George Warren Dresser, U. S. A., to Mr. George W. Vanderbilt, youngest son of the late William H. Vanderbilt and a grandson of Commodore Vanderbilt, founder of the Vanderbilt fortunes, is soon to take place.

Both Mr. Vanderbilt and his fiancée are in Paris, Mr. Vanderbilt having recently arrived there after his trip to India.

Miss Dresser is the youngest of four attractive sisters, a granddaughter of the late David Le Roy, of New York, and a direct descendant of Peter Stuyvesant.

Mr. George W. Vanderbilt, who is in his 37th year, is the youngest of "the Vanderbilt boys." He inherited from his father, not only a large fortune, fully \$10,000,000, but also the house his father built at Fifth Avenue and Fifty-first street, together with all its magnificent art collections. There was a provision in Mr. Vanderbilt's will that if his son George should die without male issue the house and its contents, together with a million dollars, is to go to the eldest son of Cornelius Vanderbilt, and from him to be handed down in the male line.

Mr. Vanderbilt's tastes are entirely different from those of his brothers. He has no inclination for sports, but is literary and artistic to a degree. For the last 10 years he has spent the greater part of his time in traveling, having visited all parts of Europe, Japan, India and nearly every portion of the civilized globe.

Biltmore is Mr. Vanderbilt's hobby. This beautiful estate, comprising thousands of acres, is situated near Asheville, N. C., and since it came into the possession of Mr. Vanderbilt what was a wilderness has become one of the grandest estates in the world. Mr. Vanderbilt is greatly interested in forestry and the entire estate has been placed under the care of scientific foresters. Almost countless varieties of trees have been planted on the place, and all sorts of experiments are being tried in the way of bringing to Biltmore the products of its lands. Many great farms are cultivated on the estate, and there is quite a settlement of farming people all under charge of expert agriculturists.

Mr. Vanderbilt has built a beautiful little church on his place, the choir being one of the finest in the country and under the direction of Mr. Caryll Florio, formerly of New York.

The house at Biltmore is like a chateau in the Loire district of France. It is the work of the late Richard M. Hunt, with whom Mr. Vanderbilt traveled extensively in France before the plans were decided upon. The detail of the house is marvelous, each room being carried out most carefully according to its period. The library is wonderfully complete and extensive.

Mr. Vanderbilt has from time to time since the completion of Biltmore, which has only been habitable about two years, entertained house parties.

Though a member of many clubs, Mr. Vanderbilt is not in the accepted sense a "club man."

The wedding of Mr. Vanderbilt and Miss Dresser will be celebrated in the Church of the Trinity, on the Avenue d'Ants, Paris on Thursday, June 2.

Mr. Vanderbilt is an uncle of the Duchess of Marlborough.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Gorton, S. D.; "Wae taken with a bad cold which settled on my lungs, caught set in and finally terminated in Consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent one above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at E. L. Allen's Drug Store. Regular size 50c and \$1.00 guaranteed or price refunded.

It is, or should be, the highest aim of every merchant to please his customers; and that the wide awake drug firm of Meyers & Esbleman, Sterling, Ill., is doing so, is proven by the following, from Mr. Esbleman: "In my sixteen years' experience in the drug business I have never seen or sold or tried a medicine that gave as good satisfaction as Chamberlain's Colic, Cholera and Diarrhoea Remedy. Sold by J. H. Janney, Druggist, 701 King Street.

S. C. P. Jones, Milesburg, Pa., writes:—"I have used David's Little Early Biscuits ever since they were introduced here and must say I have never used any pills in my family during forty years of house keeping that gave as satisfactory results as a laxative or cathartic. Charles G. Lennon.

W. M. Geary, Pierson, Mich., writes:—"De Witt's Kidney and Bladder Pills are curing more piles here to-day than all other remedies combined. It cures eczema and all other skin diseases." Charles G. Lennon.

ARNOLD'S BROMO-CELERY. Try this unrivaled remedy for Headaches, Neuralgia, Rheumatism, 10 cents.

THE GREAT Emergency Sale

MEDICINAL.

Intelligent people in this city are all aware of the fact that the blood gets into the system and is the cause of all diseases.

Consumption approaches its victim step by step. First there is a little "out of the feeling, the digestion isn't just right, the organs that are in the liver is inactive, the assimilation of the life-giving elements is imperfect, the blood gets into the system and the body is improperly nourished, the conditions get worse and worse. The blood through the arterial system is pumping this poisonous blood into every organ of the body. The organs that are in the liver is inactive, the assimilation of the life-giving elements is imperfect, the blood gets into the system and the body is improperly nourished, the conditions get worse and worse. The blood through the arterial system is pumping this poisonous blood into every organ of the body.
